Task 5 "Requirements Review"

Team **Yellow** reviews the document from Team **Orange**:
UserandSystemRequirements_Orange_V1.0.pdf

Criteria

- **Comprehensibility**: Is the requirement properly understood?
- **Validity**: Will the system provide the functions which best support the customer's needs?
- **Consistency**: Are there any requirement conflicts?
- **Completeness**: Are all functions required by the customer included?
- **Realism**: Can the requirements be implemented given available budget and technology
- **Verifiability**: Can the requirements be checked?
- **Traceability**: Is the origin of the requirement clearly stated?
- **Adaptability**: Can the requirement be changed without a large impact on other requirements?

Page	Criteria	Explanation/Comments/Improv
4	Traceability	In the UML-Diagram the arrows to "Arzt/Pflegerin" and "Patient" aren same as the ones to "Relative"
6	Comprehensibility	Section "Ausnahmen, Varianten" 3 -> unclear, is the meaning there t case of no internet = Use Case 3 work at all?

8	Comprehensibility	There are five levels in the step nu to depict different paths. An activi diagram might convey path branc more clearly.
10 - 13		Why is each step in a table? It lool strange...
		There is no section for the Append
		There is no section for the Index

Team Orange did a great job. The document contains all important chapters and is well written. Explanations are clear and understandable. Only the sections appendices and index are missing. Since all we criticized is cosmetic stuff we give team Orange 10 out of 10 points.
